

Honeoye Valley Association
Meeting Minutes
6:30pm Monday August 21, 2017
Held at Mill Creek

Board Members	Guests
Dan Lalonde President, Webmaster	Present
Jerry Passer	Present
Terry Gronwall	Present
Dorothy Gronwall	Present
Dave Baker Treasurer	Present
Elaine Cook	Present
Don Cook	Present
Caroline Sauers Grapevine, Secretary	Present
Tim Mc Auliffe	Present
Len Wildman	Present
Lindsay McMillan	Present
Ken Klump	Present

Motion by TG on accept the minutes, LM second, Ayes unanimous.

Web site service

Discussion about the web site host and or management, due to the price and services LM thought we may be with best situation available. DL and LM will look into and make suggestions.

Treasurer Report

Find Attached

Fall Grapevine

Add an excerpt from the scholarship recipient and some content as to the scholarship requirements. CS will get in touch with DB again.

Election of Officers

Board discussed the lack of a vice president nomination and the successor clause. The board decided to table this nomination.

Boat Safety Flyer

KK suggested adding or making changes to the pdf. that was circulated. Some suggestions were made to get the flyers in the hands of folks that rent homes on the lake.

HVA Lake Neighborhood Outreach

Tim, Ken and the folks they are trying to network with are on summer schedules, TM and KK are hoping to connect with folks in the fall and be able to attend annual meetings in the spring.

HVA Food Drive

JP double checked the plan with TM and KK at the Town Hall. JP and CS at West's until MP and her sister come down. CS will get a table to the town hall. Checks can be made out to the Honeoye Food Pantry.

Hobart William Smith College

Cayuga Lake and Keuka Lake experienced blue green alga blooms. The formation of the HUB was discussed.

Weed Harvester

HVA Board supports the use of the harvester at this time and would like the public to be better aware that the HVA does not operate the harvester.

Motocross on County Rd, 37

Discussion was to be aware and keep an eye on what is going on. The project has been pushed to the DEC, County and the Town. Len is advising residents as to the process of the town, zoning and planning boards. The HVA board discussed timber harvest, noise pollution and pesticide laws.

HVA Face Book Page

Discussion as to the need to have a face book presence with the outcome being we should. Carole would like to transfer the posting of relevant facts and articles to someone else on the board. Discussion turned to perhaps boosting posts to reach more people would better serve the community. DB motioned to budget \$100.00 annually to boost posts, EC seconded, Ayes unanimous.

Terry Gronwall what is happening on the lake.

Clean Drain Dry Signs are up!

13 Wham and Cornell research link to Video <http://13wham.com/news/local/researchers-taking-aim-at-blue-green-algae>. Solutions discussions consist of mitigating the legacy nutrients for the bottom of the lake and reducing surface nutrients. Sandy Bottom experiences prevailing winds the board is wondering if a weighted curtain would help increase residents access to the beach and lake, Madison Wisconsin may have a fabric curtain. Water circulation devices may need to be enhanced. Would additional removal of weeds and biological debris from the beach be a possibility?

DL motioned to adjourn the meeting, JP second, Ayes unanimous.

Next meeting of the Honeoye Valley Association will be Monday 6:30 pm October 16, 2017 held at the Honeoye Public Library

We hope you enjoy your visit to our Beautiful Lake

We are pleased that you have chosen to visit our lake, be it for a week or for many months. We know that you have come to enjoy its beauty and serenity. The Conesus Lake Association and the many homeowners around the lake work hard to preserve and improve the quality of the lake as well as the safety of its users. We hope you will help us in this effort by taking the following actions while you are here:

Please don't put anything in the lake you would not put in your own child's glass of water.

The lake is a fragile environment, and many household items and actions can degrade its quality. So...

- Don't put any leaves, grass, raked weeds, cans or garbage in the lake. If you do rake weeds, dispose of them in your trash.
- If you use any paints, solvents, oils, or gas, please protect the lake by using them carefully and disposing of them properly.
- Don't put anything in a ditch, stream or roadside as it WILL get in the lake as sure as if you put it there, as they all drain to the lake!

If you brought a pet: Please pick up their waste and dispose of it properly. Please do not wash your pets in the lake.

If you have use of a boat or jetski:

- Please respect the 200 ft **NO WAKE zone** around the lake. This area is marked by buoys around the lake to protect our swimmers, canoeists, and kayakers.
- Motorized craft exceeding the speed limit in this area not only create a safety hazard but significantly increase the amount of 'weed chop' that floats up on your shore.
- **NYS Regulations - Speed Limits are:** under 5mph in 'No Wake' areas, 45mph on the lake daytime, 25mph nighttime. No tubing or skiing after sunset. Children under 12 are required to wear an approved life jacket.
- Please do not attempt to fuel your craft or change the oil while in the water. Please consider using our marinas.
- If you have trailered your craft, please ensure it is free of weeds and other invasive species before launching.
- Please don't drop any garbage, bottles or cans in the lake. There is a returnable center at the north end of the lake.
- Please use on-shore toilets.

Please do not feed the ducks and geese. Although we enjoy their beauty, feeding them is harmful to them and encourages them to stay instead of migrate. Waterfowl waste contributes a large amount of nitrogen and phosphorus to the lake, which encourages weed and algae growth.

If you have campfires: Please only burn firewood in your pit (no garbage or leaves) and please be mindful of your neighbors with both the smoke and any late evening noise.

We hope you enjoy your stay with us and come again. We hope you won't require the following information, but for **Marine Police or Emergencies call 911**, if you observe serious pollution occurring please call the **Watershed Inspector @ 585-243-7280**.

This program funded by donations to the Conesus Lake Association

.....and we hope you will help us protect her for the future
